Painting process

- * The **Draft** will take 2-3 days after the downpayment has been made
- * If there's a **revision** with the **draft**, it's usually done on the same day when the draft was sent or it might take 2-3 days depending on complexity of the draft
- * **Pictures** will be sent **after the draft, after the first layer of the painting**, and at **90% completion**
- * The timeline **depends** on the **complexity** of the piece. Simpler portraits usually take about a **month**, while larger or multi-subject pieces may take **several months**. I'll keep you updated throughout the process.
- * **You may reach out** to me on messenger, website chat or email. I will respond to you at the soonest possible time
